**May 21, 2009**

To Our Valued Customers,

On February 17<sup>th</sup>, 2009, the United States enacted the American Recovery and Reinvestment Act of 2009 (a.k.a. the "Stimulus Bill"). The purpose of the Act-as noted in the opening sentence of its preface-is for "Making supplemental appropriations for job preservation and creation, infrastructure investment...etc..."

The Act is intended to stimulate the American economy by supporting American jobs, and more specifically, the preservation and creation of American service and manufacturing jobs. To support this, our Congress has included a very strong "Buy American" provision in the Act (Section 1605) whereby the language requires that, "None of the funds appropriated or otherwise made available by the Act may be used for a project for the construction, alteration, maintenance, or repair of a public building or public work unless all of the iron, steel, and manufactured goods used in the project are produced in the United States."

Armorcast is a great supporter of the actions our government has taken in order to revitalize the economy. We are proud that we have the ability to say that our product is "100% Made in the USA". Not

"Packaged in" or "Assembled in" but "Manufactured in". We have elected to keep these jobs here in America and to contribute to the well being of our great country.

We understand that you have choices when it comes to your enclosures. We value your business and do our best to provide you with the highest quality, service and competitive prices so that your projects are delivered on time, within budget and with the assurance that the product you have chosen to use will stand the test of time. We have followed this protocol since 1966 and will continue to do so for many years to come. And now, at this integral moment in our country's history, we hope that our ability to certify that Armorcast Products are "Made in the USA" will help you do your part in helping our country get back on track.

For more detailed information or for personalized certification documentation, please feel free to contact our office at any time.

Sincerely,

A handwritten signature in black ink, appearing to read "P. H. Boghossian", written over a circular scribble.

Paul H. Boghossian  
President
